### **June 2011's monthly index of economic activity, IMACEC.**

According to preliminary information, in June 2011 the IMACEC rose 6.1% over the same month a year before. The seasonally-adjusted series increased 0.7% with respect to the previous month, while the cyclical trend series recorded an annualized expansion of 5.4%. The month came with the same number of business days as June 2010.

The result of the month reflected mainly growth in retail and manufacturing activity.

In accordance with the pre-established calendar for the dissemination of the National Accounts, preliminary GDP figures for the second quarter of the year, together with revisions to the first-quarter figures, will be published on 18 August.
