

## PRESS RELEASE

---

Tuesday 5 August, 2014.

### **June 2014's monthly index of economic activity, IMACEC.**

According to preliminary information, last June the IMACEC grew 0.8% over the same month a year before. The seasonally-adjusted series fell 0.8% with respect to the previous month, and increased 0.5% in twelve months. The month came with one more working day than June 2013.

The result reflected, mainly, the drop in manufacturing industry, wholesale trade, and motor vehicle sales.

In accordance with the calendar for National Accounts diffusion, the preliminary GDP figures for the second quarter of 2014 as well as first-quarter revisions will be published next 18 August.
