

PRESS RELEASE

Thursday, 5 September 2013.

July 2013's monthly index of economic activity, IMACEC.

According to preliminary information, in July 2013 the Imacec rose 5.3% over the same month a year before. The seasonally-adjusted series showed no variation with respect to the previous month, and increased 4.7% from the same month a year before. The month came with two more working days than July 2012.

The result reflected, mainly, dynamism in mining and trading activities.
