October 2006's Index of Economic Activity Imacec

According to preliminary information, October's Imacec increased by 5.3% over the same month last year. The seasonally-adjusted series rose by 0.6% with respect to the previous month, while the cyclical trend series recorded an annualized expansion of 4.8%. The result of the month reflected the fact that October this year had one more working day than October 2005.
