October 2012's monthly index of economic activity, IMACE

According to preliminary information, last October the IMACEC rose 6.7% over the same month a year before. The seasonally-adjusted series dropped 0.5% with respect to the previous month and rose 5.3% over the same month last year. Meanwhile, the cyclical trend series recorded an annualized expansion of 4.3%. The month came with three more working days than October 2011.

The result of the month reflected, mainly, growth in manufacturing and trading activity.
