

## PRESS RELEASE

---

Monday, 5 October 2015.

### **August 2015's monthly index of economic activity, IMACEC.**

According to preliminary information, last August the IMACEC rose 1.1% over the same month a year before. The seasonally-adjusted series dropped 1.0% with respect to the previous month and grew 1.2% in twelve months. The month came with one more working day than August 2014.

The result reflected, mainly, increased value of services, an effect that was tone down by the poor performance of trade and the drop in mining and manufacturing activity.
