July 2019's monthly index of economic activity, IMACEC

According to preliminary information, last July the Imacec rose 3.2% over the same month a year before. The seasonally-adjusted series rose 0.2% with respect to the previous month, and 2.3% in twelve months. July 2019 came with two working days more than July 2018.

The mining Imacec increased 1.1%, while the non-mining indicator increased 3.4%, favored by the performance of manufacturing industry, entrepreneurial services, and trade. In seasonally-adjusted terms, and with respect to the previous month, the mining Imacec rose 1.7% and the non-mining Imacec rose 0.1%.

Imacec users are hereby reminded that, according to the new calendar for the diffusion of the index, beginning in October the Imacec will be published on the first working day of every month..
