

PRESS RELEASE

Santiago, 5 September, 2012

July 2012's monthly index of economic activity, IMACEC.

According to preliminary information, in July the IMACEC rose 5.3%, over the same month a year before. The seasonally-adjusted series increased 0.4% with respect to the previous month, and 5.9% over the same month a year before. The cyclical trend series recorded an annualized expansión of 5.8%. The month came with one business day less than July 2011.

The result of the month reflected, mainly, growth in the services, trade, and electric power generation activities.
