

## PRESS RELEASE

---

Thursday, 5 December 2013.

### **October 2013's monthly index of economic activity, IMACEC.**

According to preliminary information, in October the IMACEC rose 2.8% over the same month a year before. The seasonally-adjusted series dropped 0.1% with respect to the previous month, and increased 3.3% in twelve months. The month came with the same number of working days than October 2012.

The result reflected the decline in the manufacturing industry and the poor performance of wholesale trade, entrepreneurial services and transportation.
